

Manual CAT eduroam on iOS

Preparation

Delete any existing eduroam profiles on your iPhone. Only afterwards follow the instructions below:

Browser

- Open the browser and enter cat.eduroam.org.
- Click on the blue button "Click here to download your eduroam installation programme".
- Select "Technische Universität Darmstadt".
- Click on the blue button "Apple iOS mobile devices".
- Click on "Allow" in the pop-up.

Ihr eduroam®
Installationsprogramm
herunterzuladen

iPhone settings

- Open the settings of your iPhone.
- Click on "Profile loaded".
- Click on "Install" at the top right.
- Enter your iPhone code.
- Important! Enter as username: the login name of your WiFi account, e.g. *hp51ruhulan00@tu-darmstadt.de*
- Enter as Password: <password according your Wifi account>.

If there already is an eduroam profile installed:

- Go to Settings -> General -> Profile -> eduroam -> More details
- The certificate should say "**T-TeleSec GlobalRoot Class 2**", so that the use of eduroam works.
