

How-to ... WLAN / eduroam for TU Darmstadt

TECHNISCHE
UNIVERSITÄT
DARMSTADT

For HRZ-managed PC or Laptop

CAT for **HRZ-managed
PC/Laptop**

Overview

[New access requirements for WLAN / eduroam](#)

[Step 1: create your WIFI-Accounts in IDM-Portal](#)

[Step 2: delete your former eduroam WIFI account](#)

[Step 3: install configuration Tool CAT for HRZ-managed devices](#)

[Step 4: eduroam-installation-wizard](#)

New access requirements for WIFI / eduroam

As of **01.12.2022**, usage of the TU-WIFI / eduroam is no longer possible with the **previous TU-ID login data** due to the new data protection guidelines.

In this guide you will learn,

- ✓ **how to create your new TU-WIFI login and**
- ✓ **connect your pc or laptop to WIFI / eduroam (HRZ-managed)**

Please note

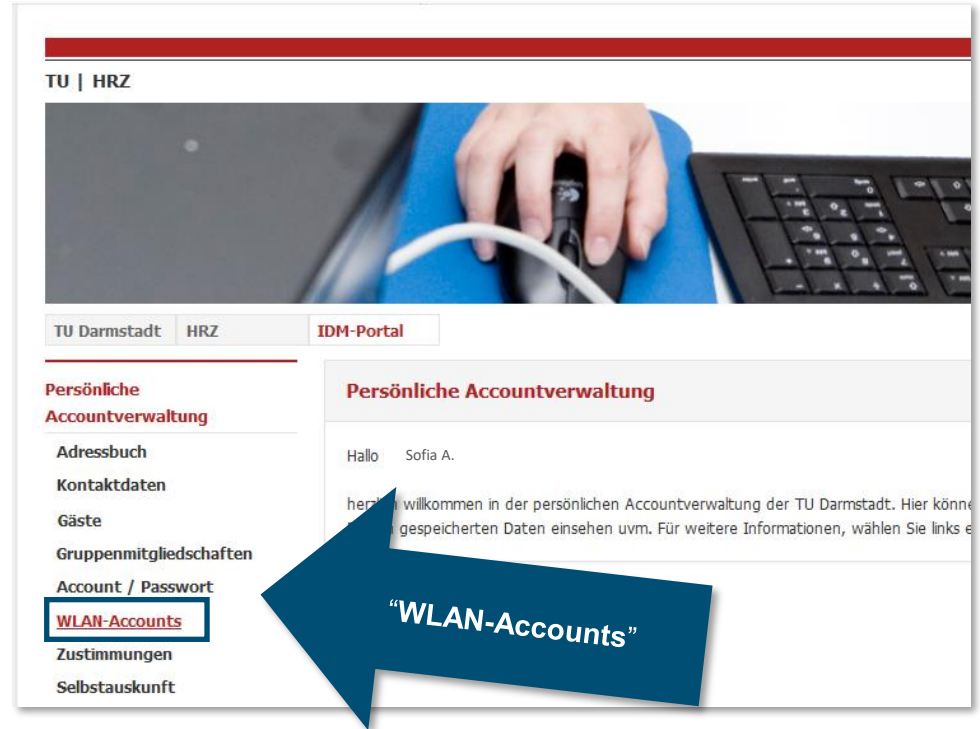

Make sure,
that you are connected to
a local network
during the whole configuration process.

Step 1: create your WIFI-Accounts in the IDM-Portal

1. create **your personal WIFI-Accounts** (*WLAN = WIFI) in the [IDM-Portal](#)
2. remember **your loginname** („Benutzername“) and **Password!**

Instructions for creating and managing personal WIFI-accounts can be found >> [here](#).

example data

Loginname: sa22cucilan00 @tu-darmstadt.de

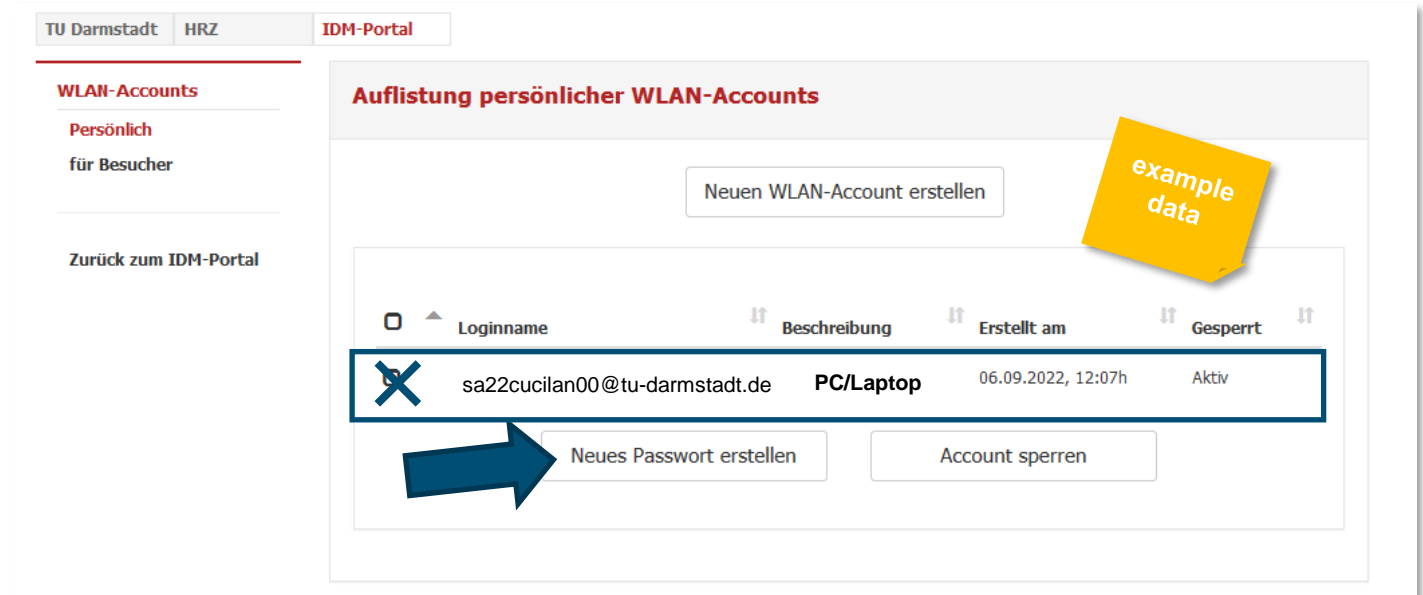

Passwort: +dcrXT6scYBBR#5x

Bitte beachten Sie: Bewahren Sie das Passwort sicher... dieses nicht erneut über das IDM Portal abrufen.

***Username consists of the following elements:** TU-ID+lan00+ @tu-darmstadt.de.
This also applies to students, so do **not** use @stud.tu-darmstadt.de.

Step 1: create your WIFI-Accounts in IDM-Portal

If you have not saved the password or have written it down incorrectly, you can generate a new password in the [IDM portal](#) anytime.

Step 2: delete your former eduroam WIFI-account

If you have already used eduroam / WIFI on this device, **uninstall (or forget) the old eduroam installation first.**

Windows

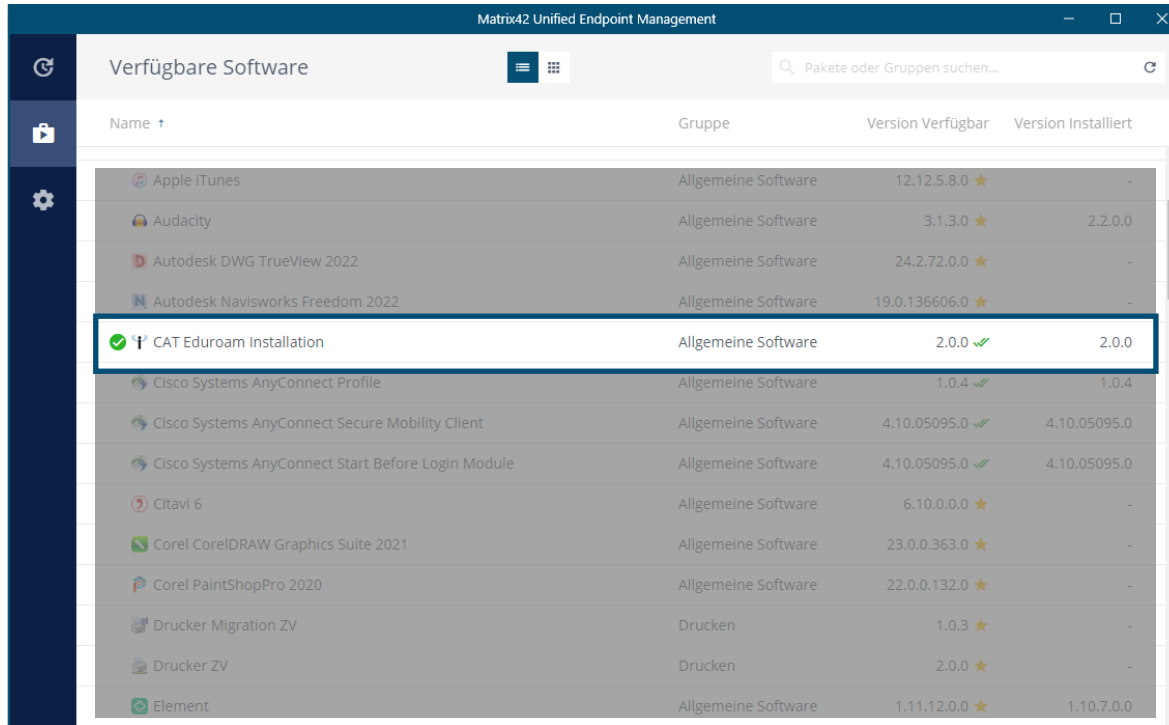

- Press Windows key > enter "**WLAN**"
- click on WLAN settings > "**Manage known networks**"
- select "**eduroam**"
- click on "**do not save**"

iPhone, iPad, Mac

- Go to "Settings" > "WIFI".
- Tap next to the WiFi network you want your device to ignore
- "Ignore this network" and then tap "Ignore" to confirm
- Restart the device to delete the old profile.

Step 3: CAT installer for HRZ-managed devices

The screenshot shows the 'Verfügbare Software' (Available Software) section of the Matrix42 Unified Endpoint Management interface. A table lists various software packages. The 'CAT Eduroam Installation' package is highlighted with a blue border, indicating it is the selected item for installation.

Name	Gruppe	Version Verfügbar	Version Installiert
Apple iTunes	Allgemeine Software	12.12.5.8.0	-
Audacity	Allgemeine Software	3.1.3.0	2.2.0.0
Autodesk DWG TrueView 2022	Allgemeine Software	24.2.72.0.0	-
Autodesk Navisworks Freedom 2022	Allgemeine Software	19.0.136606.0	-
CAT Eduroam Installation	Allgemeine Software	2.0.0	2.0.0
Cisco Systems AnyConnect Profile	Allgemeine Software	1.0.4	1.0.4
Cisco Systems AnyConnect Secure Mobility Client	Allgemeine Software	4.10.05095.0	4.10.05095.0
Cisco Systems AnyConnect Start Before Login Module	Allgemeine Software	4.10.05095.0	4.10.05095.0
Citavi 6	Allgemeine Software	6.10.0.0.0	-
Corel CorelDRAW Graphics Suite 2021	Allgemeine Software	23.0.0.363.0	-
Corel PaintShopPro 2020	Allgemeine Software	22.0.0.132.0	-
Drucker Migration ZV	Drucken	1.0.3	-
Drucker ZV	Drucken	2.0.0	-
Element	Allgemeine Software	1.11.12.0.0	1.10.7.0.0

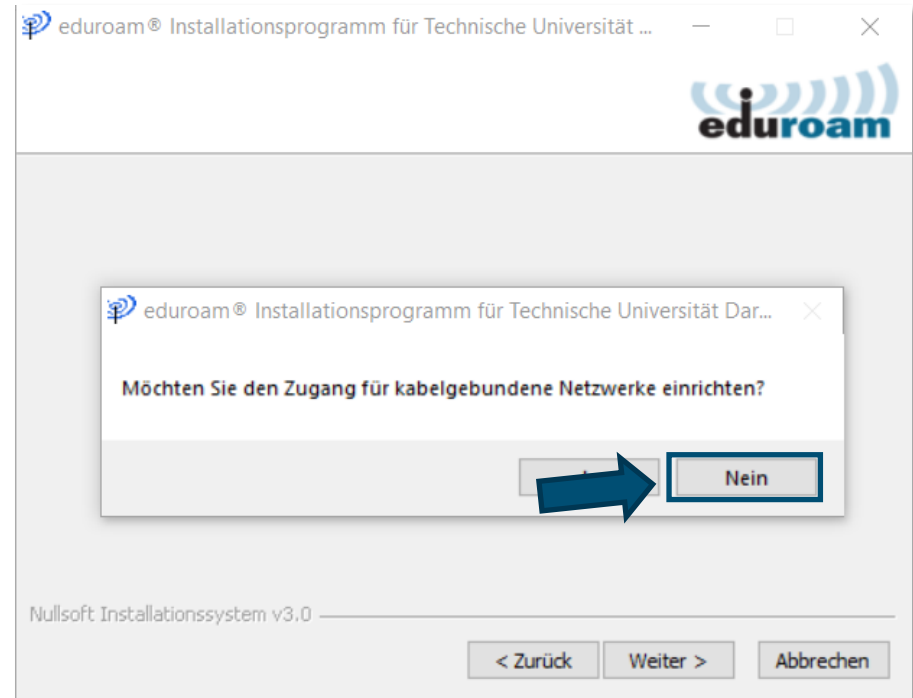

Select **CAT-Eduroam installation** from the Matrix 42 software depot

... follow the installation wizard

Step 4: eduroam installation wizard

Follow the instructions of the
installation wizard,

Since you do not want to set
up a wired network,
please click "**Nein**" and then
"**Weiter**"

Step 4: eduroam installation wizard

Follow the instructions
of the installation
wizard,

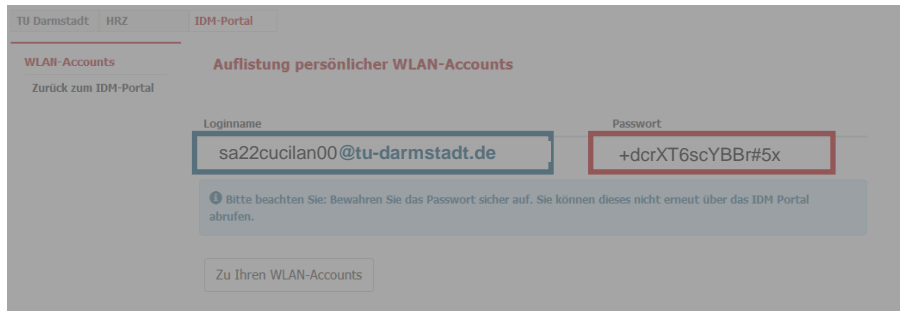

Click on: **“Weiter”**

Step 4: eduroam installation wizard

Enter the WIFI identification data here that you previously generated in the IDM.

Then click on : **“Installieren“**
